Hi Steve,

I have made an excel spreadsheet including the items you sent with some additional tasks for an initial schedule. Please review it and add any input for areas that may need adjustment. If you would like I can generate a Microsoft Project version of the schedule for later versions. Let me know if there is anything else you need.

Thanks, Elliott

Thanks Steve,

I will begin working on this and get a rough version out for input once I have it assembled.

Thanks, Elliott

Subject: Schedule - R n B and Gold King

Elliott

If you please, start a project schedule / operational schedule for the two projects on one chart/spreadsheet. It will not be possible for you to put dates and durations to all of these but those that you can go ahead but otherwise leave it open. (Matt will provide input also. Details will come in after we receive bids for the bulkhead.) I've included a few of the operational tasks below, but feel free to expand / subdivide as appropriate:

## Red and Bonita

Supplies/Materials Procurement/Reservations

Mobilization – site prep

**Pond Expansion** 

Water Treatment Set-up

Monitoring – flow measurements/sample

Mining Sub Mobilize

Injection Line Installation

**Underground Prep** 

Adit Mucking

Water Treatment Ops

Form Construction
Concrete Pour
Initial Cure
Site Restoration
Contact Grout
Demob Phase 1
Cure
Deneef Grout
Valve Installation & closure
Demob – Phase 2
Monitoring – adits, surface
Gold King
Gold King Mobilization
Mobilization
Mobilization  Road reconstruction
Mobilization  Road reconstruction  Monitoring – flow measurements/sample
Mobilization  Road reconstruction  Monitoring – flow measurements/sample  Dump Re-grade/Channel re-alignment
Mobilization  Road reconstruction  Monitoring – flow measurements/sample  Dump Re-grade/Channel re-alignment  Slope protection set-up
Mobilization  Road reconstruction  Monitoring – flow measurements/sample  Dump Re-grade/Channel re-alignment  Slope protection set-up  Water conveyance pipe installation
Mobilization  Road reconstruction  Monitoring – flow measurements/sample  Dump Re-grade/Channel re-alignment  Slope protection set-up  Water conveyance pipe installation  Water management set-up

Construct Portal
Re-grade dump w/ new Channel
Inspect Underground Workings
Rehab Underground (TBD)
Site stabilization
Demob
Let me know if you have questions.
Thanks,
Steve
